Keep Buildings Clean To Get Low Fire Rate

WITH the Ohio inspection bureau about to make its periodical revision of the fire insurance rates on commercial and industrial buildings and contents, the question of fire rates and how to lower them has become quite a popular question in Marion business circles in the last few days.

Each businessman can control to a surprising extent the rate he must pay for his fire insurance according to G Farr Larie, insurance man.

"If a fire rate inspector steps in your building and finds a pile of rubbish kicked under a stairway or a pile of dirt in the cellar you can gamble that your rate is going up," Mr Larie says.

A number of common breaches of Ohio inspection bureau rules could easily be eliminated by the business or factory man before the inspection bureau arrives here.

"You must have a proper metal base under any stove," Mr Larie says. "This base must protrude 18 inches in front of the stove.

"A swinging gas bracket no matter whether it is being used or not or a rubber hose being used to connect a stove are certain to raise the fire rate if seen by the inspector."

Broken plastering in walls and ceilings where a fire w[illegible] d be off[illegible] to extinguish [illegible] sidewalk lights for cellars [illegible] under the sidewalk are [illegible] raisers.

CHOSEN BEAUTIES IN COLLEGE FETE

At the annual Tree day ceremonies observed at Wellesley college, Mass., the beautiful seniors pictured above will participate in the colorful festivities. They are Mary Butler, chosen mistress of ceremonies, Betty Beury of Germantown, Pa., Mary D Pattison of New York, Louise Schmidt, of McKeesport, Pa., and Jeanette Austin, aides in the ceremonies.

When a Child is FEVERISH, CROSS, UPSET

Colic, gas, sour belching, frequent vomiting, feverishness, in babies and children generally show food is souring in the little digestive tract.

When these symptoms appear give Baby a teaspoonful of Phillips Milk of Magnesia. Add it to the first bottle of food in the morning. Older children should be given a tablespoonful in a glass of water. This will comfort the child—make his stomach and bowels easy. In five minutes he is comfortable, happy. It will sweep the bowels free of all sour, indigestible food. It opens the bowels in constipation, colds, children's ailments. Children take it readily because it is palatable, pleasant-tasting.

Learn its many uses for mother and child. Write for the interesting book, "Useful Information." Address The Phillips Co., 117 Hudson St., New York, N. Y. It will be sent FREE.

In buying, be sure to get genuine Phillips Milk of Magnesia. Doctors have prescribed it for over 50 years. "Milk of Magnesia" has been the U S Registered Trade Mark of The Chas H Phillips Chemical Co., and its predecessor, Chas. H Phillips since 1875.—Adv.

NEW HOCKING TRAIN DUE HERE TONIGHT

"The Sportsman" Will Be Open for Inspection from 8 to 11 O'clock.

"The Sportsman," new deluxe train of the Hocking Valley will be on exhibition in Marion tonight between the hours of 8 and 11 o'clock. The train embodies the latest features in comfort and construction and is to be operated over the Chesapeake & Ohio lines in connection with the Pere Marquette and Hocking Valley. It offers a direct connection between northwest Ohio and the Atlantic seaboard.

The route of The Sportsman traverses a popular route to the east and the schedule is so arranged as to give the busy traveler the maximum convenience. Regular service on the train is to be inaugurated on March 30.

During the exhibition stay of the train in Detroit Monday it was visited by more than 35 000 persons.

EXPENSIVE MISTAKE

CLEVELAND, March 19—Frank Lehman Jr, former sparring partner of Johnny Risko, well known heavyweight of Cleveland, was fined $50 here today because he apparently mistook his wife's jaw for that of Risko's and punched it.

Swiftest, Easiest Way to End Bilious Spell

When you neglect those first symptoms of constipation—bad breath, coated tongue, listlessness, the whole system soon suffers. Appetite lags. Digestion slows up. You become headachy, dizzy, bilious.

It's easy to correct sluggish bowel action! Take a candy Cascaret tonight. See how quickly—and pleasantly—the bowels are activated. All the souring waste is gently propelled from the system. Regular and complete bowel action is restored.

Cascarets are made from pure cascara, a substance which doctors agree actually strengthens bowel muscles. All drug stores have Cascarets, 10c.—Adv.

successes at the Washington arms conference that he was induced by the king to accept a title as a mark of appreciation of his services.

Popular in America

Perhaps no English statesman was better known or liked in America than the Earl of Balfour. In 1917 when the United States entered the war Mr Balfour came to Washington at the head of the British war mission. His tempered judgment, modest manners and quiet persuasiveness immediately won for him the admiration of all.

Born July 25 1848 he was educated at Eton and Trinity. He entered parliament from Hertford in 1874. Later he served as private secretary to his uncle the Marquis of Salisbury then secretary of state for foreign affairs. Appointed chief secretary of Ireland in 1887 his financial policy won for him in Erin the name Bloody Balfour but his subsequent success in bettering conditions softened this harsh feeling. In 1891 he became first lord of the treasury and leader of commons. The South African war occurred during this time.

Mr Balfour became premier in 1902 going down to defeat with his conservative party in 1906. He surprised his friends in 1916 by joining Lloyd George's administration which was formed to handle the desperate war situation. [illegible] still was never married.

mass in the station chapel saluted in farewell and then returned to the palace.

It was a dramatic moment as the king left. For six years Primo had been his head of government and it was only six weeks ago that Primo's rule ended and he went a voluntary exile to France where he died alone.

Demonstration Staged

The passage of the funeral cortege through the streets was the occasion for enthusiastic Royalist demonstrations in marked contrast to the temper of the crowds which recently have shown Republican sympathies.

In accordance with Spanish custom for women not to attend funerals the former premier's two daughters were not present. His three sons, however marched in the procession. Two of them, Antonio and Fernando were in the uniforms of army officers while Miguel who recently figured in several duels avenging what he considered insults to his father wore civilian dress.

United Miners Endorse Lewis as President

INDIANAPOLIS March 19—John L. Lewis veteran international president of the United Mine Workers of America today was riding on a crest of popularity following his rousing endorsement by the 31st constitutional convention of the miners.

The convention by unanimous vote and with much cheering killed a group of resolutions demanding the resignation of Lewis and of other officers. The resolutions were proposed by locals 2078 or Herrin, Ill and 4060 at Zeigler Ill.

Today the convention was to consider resolutions to slash Lewis $12 000 a year salary and those of other international officers. With Lewis' friends apparently strong in the saddle the salary pruning proposals were expected to face a hard fight.

AMERICAN GROUP TO DISCUSS PROBLEMS

Franco-Latin Differences To Be Considered in Private Conference Today

By the Associated Press

It was understood that Ambassador Morrow and Commander Harold Train technical expert who have been specially working on this situation [illegible] last partial wreckage of the conference submitted ideas which they thought might afford the basis of discussion between the two European neighbors.

It is possible that these schemes will never see the light of day. Observers say that the big problem now is to get the French and Italians to face each other across the conference table. Neither has budged from its original stand. Italy for naval parity with France which France will not concede.

A la mode

PARIS sets the styles in women's dress for the world. London is the arbiter in matters of dress for men. But, New York and Chicago, Boston and San Francisco and hundreds of smaller cities and towns throughout the United States may know what are the latest styles even before they are shown in Paris.

A seeming paradox, but true. Merchants maintain representatives in Paris, London, Vienna and other European style centers who cable the latest news of the modes, and ship samples long before they are sold abroad. In America, the news is translated into advertisements and printed by local newspapers throughout the United States. And so, American women are able to dress in the latest styles in dress more accurately than the women of any other country on the face of the globe.

Advertising keeps you abreast of the times in other ways. It tells you of the newest and best in every line of merchandise. It keeps you posted on what other people are doing and wearing and using. Read the advertisements. They are truthful and helpful. You can depend on their accuracy, for the reputations of the merchants sponsoring them guarantee their integrity.

Read the advertisements to know what is going on in the world of merchandise

Turning the light of Truth on false and misleading statements in recent cigarette advertising

---

WHAT ANOTHER MANUFACTURER of cigarettes chooses to say about his product is not our affair. Even when he sees fit to misrepresent his product and leave false impressions concerning it, that still is his business—not ours.

But—when, in his advertising, he goes beyond his own product and makes false statements or leaves misleading impressions about other cigarettes—then it is time that the truth be told.

Some time ago a manufacturer of cigarettes used the following statements in his advertising:

> "The extra secret heating process removes from (————) harmful irritants, corrosive acrids, which are present in cigarettes manufactured in the old-fashioned way, and which cause throat irritation and coughing."
>
> "No matter how much or how little you pay for cigarettes you have a choice of only two general classes, and not more than two. In one class you have the billions of cigarettes manufactured in the old-fashioned way and in the other class you have (————), the toasted cigarette, a product of modern science, a cigarette from which harmful irritants have been removed by that extra secret process described by the phrase 'It's Toasted'."

WHEN THESE STATEMENTS were first made, we assumed that they were a casual phase of that manufacturer's advertising and did not represent a deliberate and calculated policy. After making a few such statements, he abandoned this particular form of advertising. However, other statements used in his advertising came to the attention of the Federal Trade Commission on a question of their truthfulness.

As a result of the action of the Federal Trade Commission he was ordered to stop his admitted practice of using in his advertising false testimonials of non-smokers to the effect that they kept slender by smoking his brand of cigarettes, and was further ordered to stop using other fake testimonials and the specious argument that all can keep slender by smoking that brand of cigarettes. He then began to use again the form of statement quoted above or variations of it.

IF ANY MANUFACTURER chooses to say that the tobaccos he uses contain "harmful irritants, corrosive acrids, that are injurious to the throat," and then to claim that these things are removed by the heat-treating process, that is his own affair. But when he tries to create the impression that it is general practice to use in cigarettes such rank tobaccos as he describes, we object to the attempted reflection on the industry.

We have never used in our blend those rank tobaccos which can be properly described as containing "harmful irritants, corrosive acrids," nor do we believe that they are used by some of the other manufacturers.

If that manufacturer wishes to advertise heat treatment, calling it toasting or what-not, that is his right. But when, in so doing, he tries to create the impression that he is the only maker of cigarettes who treats tobaccos with heat, the truth again needs to be told.

The publication of a fake testimonial is no greater perversion of the truth than to imply that the heat treatment of tobaccos is an exclusive process with any single manufacturer.

THE FACT is that the use of heat treatment in the manufacture of tobacco is about the most commonplace and universally practiced method in the industry. It has long been standard practice.

We use heat treatment in its most modern and scientific application, both in the preparation and in the manufacture of those mild, fragrant, ripe tobaccos that carry their natural goodness into CAMELS.

The first CAMEL Cigarette we ever made was manufactured under the heat-treating process. Every one of the billions of CAMELS produced since has been manufactured under heat treatment. We rely upon heat to the limits of its possibilities to make our good tobaccos better. It cannot make inferior tobaccos good.

WHETHER OR NOT a manufacturer, to have something to talk to the public about, attaches a contrivance to his heat-treating machines to catch, condense and bottle the vapors that come from them can have no more effect toward improving the tobacco than your catching and bottling the vapors that come from your teapot would have toward improving the tea in the pot.

Our own brand, CAMEL, continues to grow, but we are, nevertheless, unwilling to let these far-reaching false statements or impressions regarding the cigarette industry go uncorrected.

The answer, to save you trouble, is two and one-half cents.

Mr Coolidge listening, offering no solution, remarked finally, "Senator, I suppose in the senate you all have plenty of time to work out such problems?'' Senator Hitchcock tells that.

RUSSIA TO REQUIRE SCHOOL ATTENDANCE

Will Inaugurate Compulsory Education for Primary Grades

MOSCOW — General compulsory education for all children in the state of Russia for at least the first grades of primary schools will be introduced this fall on orders of the Commissariat of Education. The age of matriculation in Russia is eight years.

Foreseeing a great shortage of school accommodations since hundreds of schools are already being run in two or three shifts a day the commissariat has suggested that district school boards commandeer private homes or office buildings for new schools.

Pupils already enrolled are to be pushed through the six year term and promoted from grade to grade according to their abilities instead of their ages to make room for beginners. Special help is to be given backward pupils so that none remain in the same grade for more than one year.

"May I wire my New York attorney?"

"After you talk to the D. A.'s office maybe. [illegible] to bring you down as [illegible] as we can."

[illegible] he eyed that he could trace the course of this miserable new [illegible]. The Bradstreet office had gotten in touch with Mercury [illegible] San Francisco to ascertain if it were safe to purchase the custom built roadster; the Mercury company, alarmed, had wired New York to see if the check was good and [illegible].

The check wasn't good.

"You're pretty snappy out here," said John Andrew, forehead wrinkled. "It's less than an hour—or no more than an hour—since I started the ball rolling by selling the car——"

"Trying to sell it."

"Trying to sell the car, if that makes you any happier. It's only noon now, and I don't see how it was all done so rapidly, telegraphing San Francisco, their wiring New York, getting this warrant to you here——"

"We work fast," said Blue Serge's mate. "We'll have you on your way to San Quentin before you know it."

"Cheerful soul, aren't you?" said John Andrew.

It was fast action. An hour ago he was ready to assume an arm chair on the top of the world, and now prison was staring him out of countenance. He didn't understand it, but what good did that do? The only thing possible was to go with the deputies, which he must willy nilly, and when he was permitted, wire Craig for information. Suppose—to add to his distress—they didn't let him wire until tomorrow, Saturday, when it would be too late to get the money to satisfy his agreement with Blake after the Bradstreet people were convinced it was legal to buy the car? What then? John Andrew knew too well. Chaos.

And so he tried once more. "Why not let me wire east and clear the matter up before it goes too far?" he pleaded.

"Mister, we got our orders; we ain't paid to think. It ain't our fault. All we got to do is to take you along, and all you got to do is to come quiet and not make any rumpus——"

The telephone rang.

The two deputies glanced at the instrument and then at each other. "He may've had help on this job," said Blue Serge. "You go answer the phone, Jim, an' maybe you can find out who it is and where——"

Jim went between the twin beds. "Hello," he said. "You want to talk with Mr. Kellogg, lady? Well——"

John Andrew strode toward the instrument, but felt something hard, round and hollow in the center press against his side. He stopped stock still.

"You were expectin' him, lady? Well, now, that's too bad. Wait just a minute an' I'll see when he'll be in [illegible]." He covered the transmitter with a big hand and turned to Blue Serge. "It's a dame," he said unnecessarily. "She wants to talk with this guy. What'll I tell her?"

"Find out who she is——"

"The lady had nothing to do with it," Kellogg said wearily. "She doesn't know if the car's new or if I've had it a year. She's just some one I know here," John Andrew ended lamely.

"I'll have him call you just as soon as he comes in, lady. What did you say your name was? Me? I'm just a [illegible]," he turned to Blue Serge, "who in hell am I?" he [illegible] jeered, and before the other deputy could figure out, hearing what he [illegible], he said loudly into the instrument: "[illegible] you think I'm just kiddin' you, an' you got the wrong number, huh? Well, lady, if you want to see your boy friend, you can——"

Here John Andrew, white to the lips, tried to step forward, but the muzzle against his ribs stopped him a second time.

"You just come along down to the county jail, lady, an' you and big boy can talk it all over comfortable. You——"

"Say," he said angrily, "she hung up right in my snoot. She's wiser than we thought."

"Fortunately," said John Andrew.

"Feller," said Blue Serge, slipping his revolver back into its holster, "you talk too much. From now on, shut up."

The lobby of the Poinsettia, like the flower from which the hotel is named, is scarlet and gold, as the noon hour lunchers saunter about or, awaiting friends, loll in the red cushioned chairs and davenports; guests enter laughingly, or chat a moment with fellow travelers from Indiana or Iowa or Illinois; movie people, temporarily disengaged and waiting for new parts, give the other guests something to discuss and to tell about when they are back in Fort Wayne or Vandermarck or Chicago.

Out of the elevator and into the throng of Poinsettia guests there came one who baffled even the leaders of the motion picture magazines. He was—all could see—interestingly gaunt and exceedingly well dressed; his face was set in the sort of lines you imagined an actor's assumed. He wasn't Barrymore, but he was [illegible] sort of pale and unhappy.

Love's Reawakening

The Story of a Wife's Triumph Over Jealousy

BY ADELE GARRISON

Madge Is Bewildered

I WAS glad indeed that Robert Savarin's eyes left my face before his expression [illegible] ing his fortune which he said he wished Lillian to have. I could not completely conceal the dismay which swept over me at his announcement, and I did not wish him to see that I was at all disturbed or even astonished at what he had told me.

But I never have flogged my brain so mercilessly as I did during the few seconds of his revelation. Something I knew must be done to stop the act he contemplated. Perhaps his wife to come to the death bed of a man who had loved her long and hopelessly was one thing to Harry Underwood. But having her inherit the property of the man who had loved her—that was distinctly another thing.

First, however, I must know just what he intended doing, and forcing my voice to casual interest, I said quietly:

"Tell me about it. I think I can qualify for your stipulation of someone close to her."

Robert's Secret Will

"Closest of all except her daughter and ——" He broke off abruptly, and I knew he would not let the word "husband" cross his lips. "Here is what I want you to know and to tell Lillian when I am gone, not before." His voice was suddenly stern. "I am a richer man than anyone knows. Half of what I have will provide amply for my sister and her family. My sister knows and approves my action in willing the other half to Lillian. But she is not to know of it. I can readily see where Mr. Underwood might make things unpleasant for her if he knew about it. So I have willed the half of my fortune to you——"

Then my astonishment got the better of my caution for him.

"No, no," I protested, rising in excitement. But he pulled me down into my chair again with an exertion which I knew he must not be permitted to make, and I saw that there was nothing for me to do but to humor him.

"Please, dear lady, don't interrupt me again," he said almost sternly. "Remember I am—fighting—for strength—to tell you this. I have it all written in a letter which my sister promised to deliver to you after—I—go. But this is a heaven-sent opportunity. I can tell you about it and get your promise to carry out my wishes concerning Lillian."

He did not wait for my reply, but swept on headlessly.

"You know that Lillian is not a young woman. You know how she has spent herself and her money on those she loves and everybody else within range of her sympathies. I must leave things so that if she ever needs money mine will be at her command. The only way I can do that [illegible]

Jubilee's Pardner

• • •

A Story of Boyhood Adventure

BY JUDD M. LEWIS

CLEAR and coolish. When I had let Jubilee down by the rope in his teeth and got my short britches on and went down and done my other work and milked the cows I came in to strain my milk and feel my face. My grandfather said if the good weather kept up till Saturday it ought to be good fishing. My aunt said that women had their weaknesses but very few of them got any fun out of setting on a wet bank dangling a worm in the water a whole day at a time. My grandfather said there was some females he knowed would be better fishermen for what they were after if they fished for fish long enough to know that you have got to humor the fish and use the right kind of bait. I don't know what there was about that to make her mad but she said she wasn't trying to catch anything and she would thank him if he would not refer to her as a female and he said that he wasn't talking about her and that he always called ladies females. Just then my mother who had went out in the kitchen for the coffee pot let out a holler and Annabelle Lee had tipped up and put her doll in the pan of milk I had strained. I got blamed for leaving it on the table instead of putting it in the pantry, but every one thought Annabelle Lee was smart. I grabbed my hat and skun out before my father could get after me and I suppose my mother had to strain the milk all over.

We stayed out in our barn whittling out kite sticks till it was time to go to school and we had a lot of them whittled out and all ready to put together and as fast as we finished them we laid them across a bucket. Just when we were thinking about going to school Feeble rolled up her eyes and clasped her hands and said "Oh Thomas Aristides, will you make me a kite?" and sot square down on the kite sticks and busted every one of them so that all I had to show for my work was a blister from whittling. I said to her that I wished she was my sister, and she said she was glad she wasn't, because if she was she couldn't marry me when we grow up. I told her she couldn't run fast enough to marry me and she said she didn't believe I could run as fast as I could. I hope she moves away before we grow up because I don't want to marry her but I might change my mind if she is always around.

We went over by old man Scanlon's after school and didn't try to make any more kites. I haven't got any more chicken pox than a rabbit and I bet I'll have to go to school until vacation.

If you don't have work enough to occupy your time you'll be bored. Which would you rather—work or be bored?

IF KIDNEYS BOTHER TRY DOSE OF SALTS

Drink Quart of Water If Your Back Hurts or Bladder Troubles

No man or woman can make a mistake by flushing the kidneys occasionally, says a well known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin to drink soft water in quantities, also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia water drink, which everyone can take now and then, to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications.—Adv.

Mouser Talks on Topics of National Interest

Eighth District Congressman Makes Hurried Visit Over Territory During Brief Visit to Home Here, Returns to Washington for Remainder of Session.

The United States soon will enter the greatest period of prosperity since the World War in the belief of Congressman Grant E. Mouser Jr. who returned to Washington last night from a brief visit to his home here.

Tariff bills now in the legislative machine will help American agriculture as well as American [illegible] in general, he said yesterday in an informal talk with county political leaders.

Discusses Naval Meet

Discussing the London naval conference Mouser declared the United States is doing at least one positive thing in showing the American people it will not enter into entangling alliances with European nations.

"The conference also is proving to the world that the United States wants to reduce armament and that it is seeking peace. Other nations are holding out for all they can get, while the United States is really attempting to cut down its arms.

"Personally however I believe the United States will be better off with an adequate navy not that we would need to use it for aggressive purposes but we ought to have such a navy for our own protection" the congressman declared.

The house is far ahead of the senate in its legislative program according to Mouser. While the senate is going about its work very slowly the house is continually laying bills at its door for its action Mouser said.

House for Enforcement

While there has been considerable agitation toward repeal of the eighteenth amendment the house is standing pat on its policy of law enforcement, Mouser declared in discussing the wet-dry controversy now raging in the nation's capital.

During his brief stay here Congressman Mouser made hurried visits around the district to feel out the sentiment of his constituency in regard to national problems that affect this section of the country.

LAST NIGHT *at the* THEATERS

See "General Crack," Reviewer Advises

"GENERAL CRACK" is recommended for all patrons of the theater. It has humor, it has satirical [illegible] romance, it has action galore, there is an interesting plot and there is John Barrymore. And what a voice this dramatic star has!

Prince Christian Rudolph Augustus Christopher Kettler — shortened to General Crack — is one of the most dashing, romantic, thrilling figures in screen dramatic history. This moving drama is a royal treat in the story of a gypsy prince who loved a gypsy girl and married her and through a series of climatic events, ascends a throne, the betrothed of an arch duchess.

At the Palace theater tonight and Thursday this picture should draw the attention and the attendance of Marion's throngs of talking picture fans. It is all talking costume picture and has several beautiful technicolor scenes in the court of Emperor Leopold II of Austria.

With the feature picture is a newsreel novelty Fleischer song, and Billy Warner at the console organ.

Council Asked To Launch Street Rebuilding Program To Provide Employment; Action on Airport Is Urged

Special To The Star

BUCYRUS, March 19—Cooperating with the local employment committee, Mayor Arthur Schuler appeared before the city council Tuesday night urging a street rebuilding program be launched on Walnut st., one of the oldest streets here, for the purpose of providing employment for men of the city. No definite action was taken by council in the project, however. Service Director Clarence Koler was instructed by council to push the street widening program as soon as weather permits.

Councilman Herman Long, in behalf of the special airport committee composed of representatives of the council, Chamber of Commerce and Rotary club asked last immediate action be taken on the selection of a site for a municipal airport for which the city voted a $40,000 bond issue last November. It was agreed to visit the various sites for which offers are at present on file. Five additional offers of sites were received by council.

Legislation leading towards the improvement of Iron st. by paving was temporarily halted last night when Mayor Schuler returned to council unapproved the ordinance adopted at the last meeting. Mayor Schuler said that practically all property owners between Rensselaer and Charles sts. had protested the improvement.

A new dumping ground was established by council when that body accepted in a resolution a lease on two lots on the south side of West Rensselaer st. from Frank H [illegible] and Ralph Perrott.

Another step in the legislation for the new storm sewer project was taken last night when notice was given that the plan for the sewer had been completed.

In anticipation of street improvements to start as soon as weather permits, Service Director Koler was authorized to advertise for bids and enter into a contract for the hauling of stone.

Sage Tea Turns Gray Hair Dark
By RUTH WAITE

Every woman with gray, faded or streaked hair is entitled to do something about it, for it is every woman's birthright to retain her youthfulness and charm as long as she can. When a woman mentions gray hair to me, I don't hesitate to advise the use of a restorer and I recommend sage tea and sulphur.

A brew of common garden sage, when properly combined with sulphur, restores gray hair to its original color, lustre and beauty. So perfectly does it do the work that its use is undetectable. You may either prepare the mixture at home or buy it already prepared and ready to use. Wyeth's Sage & Sulphur is the name of the prepared article and costs only 75c a bottle at druggists. Hence there's no need of your bothering to prepare the mixture yourself.

You simply moisten a comb or soft brush with it and draw it through your hair, one strand at a time. The very first application banishes the gray and one or two more sees the hair beautifully restored to its original life and color. One would be surprised if she or he knew of the thousands who use this preparation.—Adv.

FINDLAY WILL TRY FOR FIRST TITLE IN 18 SEASONS

Blue and Gold Returns to Tournament After Lean Years

BY LATHROP MACK
Associated Press Sports Writer

COLUMBUS March 19 [illegible] years after winning the state basket ball championship Findlay's blue and gold team returns this week-end to the big meet.

In 1912 Findlay was the [illegible] at Delaware where the meet was held and in 1912 was runner up. That was long before the formation of the Ohio high school athletic association but throughout the [illegible] years Findlay made no progress in tournament play.

Findlay's present team is the outgrowth of several years of preparation. All the regulars are seniors. They are the [illegible] of the northwest Ohio district.

Since losing [illegible] to Columbian High school of Tiffin in the first game of the season [illegible] has not been stopped.

Jimmy Clark forward and captain has scored more than 200 of Findlay's 506 points. Rex Redman is a crafty player and one of the best in Findlay's recent history. He is a forward. The center is Clarence Hendricks six feet two inches tall.

Jerry Collins and Wilbur Shoemaker are guards. Collins is the floor man while Shoemaker defends the goal with convincing sincerity. The substitutes are Russell Hendricks brother of Clarence, Joe Spangler, Dick Beltz, a football triple threat, Charles Brandman and Merlin Jeffery. Beltz, Brandman and Jeffery are sophomores, Hendricks a junior and Spangler a senior.

Findlay meets Stivers of Dayton the defending champion in the first round Friday. The game is scheduled for 9:30 p m and Findlay does not intend to make the long trip here for a late game and then be put out of the tournament easily.

Coach Robert T. Knode is something of a strategist. He feels his team has as good chance as anyone to beat Stivers and that it is capable of doing the job.

Knode is a University of Michigan man who formerly understudied George Burns at first base for the Cleveland Indians of the American baseball league.

YANKS LOSE ON 13 HITS

ST PETERSBURG Fla March 19—Thirteen hits put together at judicious intervals can score plenty of runs in baseball. Thirteen hits not so arranged, couldn't save the New York Yankees from a 7-5 beating by the Boston Braves yesterday. The Braves made only eight hits but wasted none of them.

CHURCH TEAMS HAVE SIX STRAIGHT WINS

Will Play Friday Night To Decide Second Half Champs; Winner To Meet Waldo for Title.

TRINITY BAPTIST and Central [illegible] [illegible] their [illegible] records of six victories and no losses last [illegible] the first half [illegible] Waldo Lutheran bought [illegible] into a tie for the [illegible] [illegible] and also sent Central Christian into sole possession of the [illegible] winning [illegible] of the season. Calvary was the only second division team to improve her standing, a victory over United Brethren lifting her out of last place for the first time [illegible]. Her record now stands [illegible] won.

Vic Gillis stellar forward tossed in baskets from all over the court for a total of 20 points [illegible] high point man of the [illegible] was the main [illegible] the [illegible] offense and also played a good defensive game.

In the early part of the Baptist [illegible] Epworth [illegible] looked like the leaders might be in for a hard [illegible] but a pleasant evening [illegible] before the game had progressed very far the Baptists pulled away and were not pressed to win their sixth consecutive start. Had it not been for the outstanding defensive work of Epworth's back guard, Cram, the game would not have been interesting as Cram took up more passes and shots than any man on the floor. Merchant and Applegett were the star performers of the winning aggregation.

Friday night the two leaders will meet to decide which one of them is to emerge from the second half of the season with an unblemished record. It should be a nip and tuck game. Both teams have an array of stars which will assure a hard fight and a good game all the way. The winner of this game will play Waldo Lutheran winners of the first half of the season for the [illegible] of the year.

Swiss Runner Cracks Record in Indoor Meet

DRAM PAUL MARTIN TAKES 1,000 YARD RUN IN FAST TIME

Defeats Ray Conger in Thrilling Finish, Three-Fifths Second Below Record

NEW YORK March 19—Dr. Paul Martin the 29 year old Swiss doctor and runner took his bows [illegible] world today [illegible] acknowledged a great runner.

In a brilliant performance at Madison Square Garden last night the Swiss Olympic veteran won the American championship at 1 000 yards in the twenty fifth annual National A A U indoor meet. He defeated Ray Conger of the Illinois A C in a thrilling finish which produced a new national championship record of two minutes and [illegible] and [illegible] seconds, the second fastest time ever [illegible] trod on the boards.

The time is better than Lloyd Hahn's championship figures of 1927 when he won in 2 12 and 4-5. Harold Cutbill's world record of 2 12 made in Buffalo eight years ago is all that stands above the doctor's effort.

Conger attempted to set a killing pace for the Swiss and did the quarter mile in 57 seconds but Martin was not to be killed and ran with the mid westerner until the last 50 yards when he uncorked a magnificent sprint winning three yards in the lead in the finest 1 000 yards ever [illegible] in New York. Dr Martin ran in the colors of the New York A C.

Herman Brix of the Los Angeles A C established a new indoor record in the shotput with 51 feet two and one half inches.

Joe McCluskey Fordham freshman entered the ranks of the national senior champions at the age of 18 when he won the two-mile run in time of nine minutes 30 and 4-5 seconds.

Illinois A C won team honors scoring 18 points. New York A. C was second with 12 and Los Angeles A C third with 10. Boston A A and Newark A C tied for fourth place with 9 points each and Georgetown was next with 8. Greenwood track club and the University of Illinois tied with 7 points each.

In addition to Martin, Brix and McCluskey winners crowned as National A A U titleholders were:

60-yard dash—Chester Bowman Newark A C

70-yard high hurdles—Lee Sentman U of Illinois

Boxers who foul will be paid only for the completed rounds before the disqualification. The remainder of the purse will be turned over to the promoter.

JACK DEMPSEY NOT BROKE SAYS WALSH

Down to Last Fifty Business Suits, Otherwise Has Plenty of Money for Rent, Losses Exaggerated

BY DAVIS J WALSH

NEW YORK March 19 Jack Dempsey is so broke [illegible] down to his last fifty business suits and doesn't really know where his next million is coming from. In fact I am given to understand today he may not even know this for a year or two and it is reported that [illegible] worry and uncertainty have [illegible] completely unnerved. They say that unless he regains some measure of composure he barely will be able to sit up and eat his own [illegible].

This information in refutation of the stories that Dempsey [illegible] have to fight for the right [illegible] comes to the writer [illegible] the added statement that the [illegible] Dempsey lost this year was a half hour one day when he was waiting for a street car.

Potentially if not actually it seems that the man is $1 000 richer now than he was at a corresponding period a year ago.

His losses as a promoter in Chicago have been fixed at $60 000 over a period of the last six months and personally I admired from afar the sang froid with which he sustained the blow. It appears now that he was unquestionably entitled to be philosophical about the matter. They say only two things were lost namely somebody else's sixty thousand and John's time.

Denies Report

John by the way wishes to deny the report that he intends to retire from the field of promotion in Chicago and I'm certain he wouldn't deceive me because my understanding is that somebody is paying him a salary of about $50 000 a year out there. If this is true he isn't taking the rap, he's simply found the place where they print their own money.

So when he tells me that he is going back to Chicago I know he is. In fact at the rate of $50 000 a year it is reasonable to expect that he will persuade himself to keep right on going back to Chicago for the next two and one-half years, said to be the life of his present contract. At that he might stop going back there—if you hit him resolutely with the leg of a piano.

Not Broke Yet

Anyhow the stories that the rent money is gone and that the poor fellow might have to go to work after all seem to be like Mark Twain's first death—slightly exaggerated. According to some data furnished me today he has managed to eke out an existence this year from the following items:

The sum of $40 000 which he was prevailed upon to accept from Humbert J Fugazy New York promoter.

A half year's salary said to be $25 000 in Chicago.

A vaudeville salary of $7 500 while playing the feature house on Broadway plus a salary of $2 500 while playing the smaller houses which he has not yet ceased to do.

A total guarantee of $7 500 for refereeing three fights during the year, also a 10 to 15 per cent cut [illegible] who [illegible] far [illegible] few.

[illegible] a [illegible] list of [illegible] might be added [illegible] [illegible] definite [illegible] that a large share of his expenses have been paid. Assuming therefore that he has more than he [illegible] money left from the $750 000 he won in the first Tunney fight and from the $700 000 he grossed from the Sharkey and Tunney fights the following year it may be safe to assume also that they may have to show him something more than money to get him back in the ring again—[illegible].

MANAGER NAMES PITCHERS

By The Associated Press

NEW ORLEANS March 19—Manager Roger Peckinpaugh has about decided on seven of the nine hurlers to be carried by the Cleveland Indians this year. Hudlin, Ferrell, Miller, Holloway and Shaute are the holdovers while Clint Brown and Pinky Shoffner rookies, are almost sure of sticking. Belve Bean, Pete Jablonowski, Mel Harder and Sal Gliatto will fight for the remaining two jobs.

The Tribe rained out since last Thursday hoped to finally play its first exhibition game of the season with New Orleans today.

THE GUMPS BY SIDNEY SMITH

I KNOW— BUT THAT PHONE HAS RUNG ALL MORNING LONG— CALLING FOR BIMBO— HIS LITTLE HEAVEN EYES—
BUT YOU CAN'T BLAME THE WIDOW FOR WANTING TO GRAB UNCLE BIM— HE'S THE BIGGEST CATCH I KNOW OF— AND ONE OF THE WEALTHIEST MEN IN THE WORLD— WE KNOW SHE'S AFTER HIS MONEY—
AND AFTER ALL MONEY TALKS— YOU KNOW—
I KNOW— MONEY USED TO TALK— BUT IT'S NOT ON SPEAKING TERMS WITH US LATELY— YOU DIDN'T PUT A "NO TALKING ALOUD" SIGN UP ANY WHERE IN THE HOUSE— DID YOU?
OUR MONEY MUST HAVE THE LOCKJAW— OR SOME THROAT INFECTION— I THINK SOMEONE HAS PUT A GAG IN ITS MOUTH— ITS THROAT MUST BE CUT— FOR LATELY IT MERELY WHISPERS— TRYING TO GET AN EARFUL OF CONVERSATION AT THE KEY HOLE OF OUR SAVINGS IS LIKE LISTENING TO THE SPHINX—

Cheap Money Brings Heavy Sale of Bonds

By The Associated Press

NEW YORK March 19—The appetite for bonds whetted by the cheapest money in years brought steadily rising prices in today's market The volume especially in unlisted securities was enormous [illegible] reported while the turnover on the New York stock exchange was at the rate of more than $3 000 000 an hour in the earlier dealings

Inquiry was especially keen for new issues. The day's flotations were promptly oversubscribed and buying of bonds offered since the first of the year or before the advance had tightened yields on offering prices, went forward briskly Among the most active issues was the new Baltimore & Ohio convertible 4½s which quickly touched a new top above 103 on heavy accumulation

For the first time in slightly more than five years call money renewed at three percent on the exchange Simultaneously loans were offered on the outside market at two percent, but this rate was soon cut to 1½, which equalled yesterday's bottom rate the lowest in 13 years. Later the official rate was cut to two Time money was steady But many dealers are anticipating a flat 3½ per cent charge

SAYS WORLD RULED BY ANGLO SAXONS

Political Science Professor Charges England, America with Conspiracy.

BY FREDERIC K ABBOTT

PARIS — Britannia rules the waves Who rules the waves rules the world but this time it's with America's help

According to Professor Georges Blondel of the School of Political Science the entire world will soon be under the heel of Anglo-Saxon imperialism He says England and the United States are on the very verge of an alliance

The professor claims that this alliance will control the finances and naval power of the world and will as a consequence clean up the rest of the globe and find itself master of the situation

"America has great ambitions" says Blondel England knows that the United States is the great financial power of the world Therefor since the two nations are alike in speech race and traditions why isn't an alliance in the offing

There is no getting around it according to Blondel because England is imperialistic because she is by nature a maritime nation America is imperialistic because she feels the superiority of her civilization

Mr Hoover and Mr MacDonald went fishing on the Rapidan and the professor is certain that this fishing trip is indicative of the way the wind is blowing

Let us hope that these wise men will prevent France from becoming a victim of the drastic changes that are certainly in preparation

GRAINS SCORE EARLY GAINS

Strength at Liverpool and Appearance of Germans on Market Helps Chicago

By The Associated Press

CHICAGO March 19—Stimulated by a sharp upturn in Liverpool quotations and by scarcity of offerings here Chicago wheat prices scored early gains today It was reported Germany was buying wheat at Rotterdam to anticipate an increase of German import duties, and that Russian grain was boycotted Starting ⅛-1c higher Chicago wheat futures continued to advance. Corn oats and provisions developed strength also, with corn opening 1-8@7-8 up, and subsequently rising further

Forecasts of a more sustained buying demand for wheat at Liverpool went hand in hand today with a brisk advance of Liverpool quotations Besides Argentine offerings at Liverpool were higher and Argentine shippers were reported as buying futures There were also frost advices from Kansas and predictions of a severe cold wave tonight northwest sweeping southward during the next 36 hours Suggestions too were numerous that the action of the market apparently indicated that bearish news has practically been discounted until the new domestic winter wheat crop is farther along

According to one trade authority European continental stocks of native wheat were decreasing and in Italy especially offerings have been reduced Furthermore shipments of foreign wheat destined to Great Britain are smaller than has been the rule of late and British stocks are diminishing, with quantities on ocean passage likewise curtailed On the other hand there was little business reported in North American wheat overnight.
